ATTACHED DRAFT: Soviet Economic Trends and Their
Implications For East-West Trade.

August 20, 1954

Attached is a copy of my draft paper
on East-West trade trends. I am circulating it
in this form to some of the people who have been
personally helpful to me in its preparation, in
the hope of receiving comments before I have to
submit my finished paper. Since I am scheduled
to leave Washington at the end of next week, sug-
gestions early in the week would be most helpful.
